

The unique story of EasyRoller

EasyRoller is the first **NON METAL** wheelchair on the market. It is the best choice for institutions where the use of metal inside the wheelchair is not allowed or not desireable. EasyRoller is made of environmentaly friendly recyclable plastic. EasyRoller is unique and will make the user feel comfortable, and ease the work for assistants and other personnel.

**For Airport security:** Wheelchair users can easily pass through security checkpoints without interfering on the scanning process.

**For swimming pool institutions:** The users can easily and comfortably take the wheelchair into the swimming pool and the product will resist the chlorine in the water.

**For hospitals:** Patients can easily be moved through the entire hospital and all the way through the MRI-room without interfering with the MRI equipment.

### The History of EasyRoller

#### Year 2000:

Development of EasyRoller 1 started.

#### Year 2001:

EasyRoller 1 was introduced to the market - and the first units were sold.

#### Year 2006:

Swimming pool: Most of swimming pools with access ramps in Norway and Denmark

# User - friendly

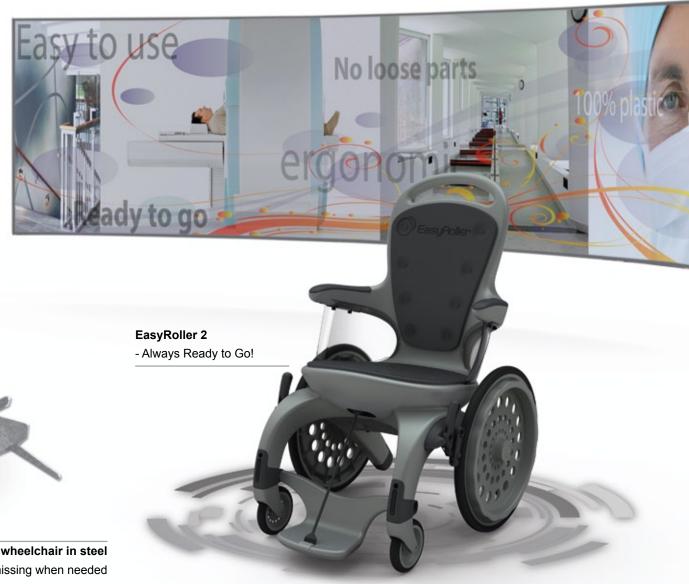

EasyRoller 2 has a unique design based on timeless furniture design. It has an overall soft shape and padding to protect the user on all human contact areas.

The main goal for the design is to make the product more appealing, preventing the user from feeling uncomfortable and institutionalised.

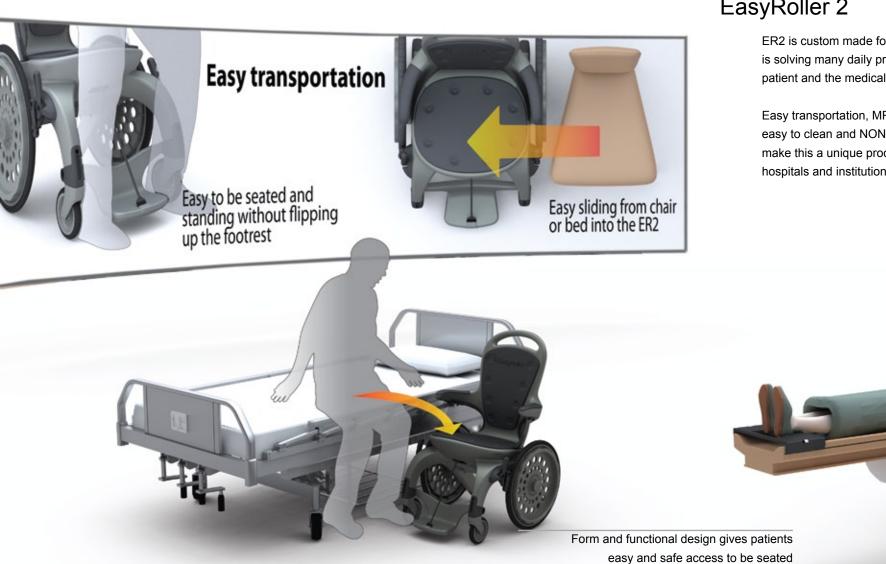

Traditional wheelchair in steel

- Loose parts often missing when needed

# EasyRoller 2

ER2 is custom made for institutions and is solving many daily problems for the patient and the medical personnel.

Easy transportation, MRI friendly and easy to clean and NON maintenance make this a unique product for all hospitals and institutions.
